Security Audit

Status : CRITICAL_RISK

Total Checks : 49 **Passed :** 29 **Failed :** 20

Critical : 1 **High :** 3 **Medium :** 8 **Low :** 8

Covers: SSL/TLS audit, SSL certificate validation, TLS cipher analysis, security headers, cookie security, CORS, HTTP/HTTPS audit, HTTP methods, sensitive paths, mixed content, cache-control and information disclosure.

SSL / TLS & Certificate Audit

Parameter	Result
TLS Version	TLSv1.3
Cipher Suite	TLS_AES_256_GCM_SHA384
Hostname Verification	PASS
Self-Signed	NO
Valid From	Jul 1 18:34:16 2026 GMT
Valid Until	Sep 29 18:34:15 2026 GMT
Days Remaining	46
Issuer	countryName=US, organizationName=Let's Encrypt, commonName=YE1
Subject	commonName=www.bridging-the-gap.com
Subject Alt. Names (SAN)	www.bridging-the-gap.com

DNS, DNSSEC & Domain Audit

Parameter	Result
A Records	141.193.213.10, 141.193.213.11
AAAA Records	N/A
MX Records	N/A
NS Records	N/A
CAA Records	None (finding)
DNSSEC Enabled	NO
WHOIS Registrar	Bluehost Inc.
Domain Expiration	2026-11-04 20:32:12+00:00
Days To Expiry	82

Security Issues & Recommendations

Severity	Check	Details	Recommendation
CRITICAL	Website Availability	Website returned HTTP 403.	Verify website availability and server configuration.
HIGH	HSTS	Strict-Transport-Security header is missing.	Configure a proper Strict-Transport-Security header.
HIGH	Content Security Policy	Content-Security-Policy header is missing.	Configure a proper Content-Security-Policy header.

Severity	Check	Details	Recommendation
HIGH	HTTP to HTTPS Redirect	HTTP does not correctly redirect to HTTPS.	Configure a permanent HTTP to HTTPS redirect.
MEDIUM	X-Content-Type-Options	X-Content-Type-Options header is missing.	Configure a proper X-Content-Type-Options header.
MEDIUM	X-Frame-Options	X-Frame-Options header is missing.	Configure a proper X-Frame-Options header.
MEDIUM	Referrer Policy	Referrer-Policy header is missing.	Configure a proper Referrer-Policy header.
MEDIUM	Permissions Policy	Permissions-Policy header is missing.	Configure a proper Permissions-Policy header.
MEDIUM	CSP Strength	No Content-Security-Policy header found.	Implement a restrictive Content-Security-Policy.
MEDIUM	HSTS Strength	HSTS header missing entirely.	Add a Strict-Transport-Security header.
MEDIUM	Clickjacking Protection	No X-Frame-Options or CSP frame-ancestors directive found - page can be framed.	Add X-Frame-Options: DENY/SAMEORIGIN or a CSP frame-ancestors directive.
MEDIUM	DNS - CAA Record	No CAA record found - any public CA can issue certs for this domain.	Add a CAA record restricting which Certificate Authorities may issue certificates.
LOW	Information Disclosure - server	Server technology information exposed: cloudflare	Remove unnecessary technology/version information from HTTP headers.
LOW	Cache-Control	Cache-Control header is missing.	Configure appropriate Cache-Control policies.
LOW	Security.txt (RFC 9116)	No security.txt file found.	Publish a /.well-known/security.txt file (RFC 9116) for responsible disclosure contacts.
LOW	DNSSEC	DNSSEC does not appear to be enabled.	Enable DNSSEC at the domain registrar / DNS provider to protect against DNS spoofing.
LOW	Cross-Origin-Opener-Policy	Cross-Origin-Opener-Policy header is missing.	Configure a Cross-Origin-Opener-Policy header to reduce cross-origin attack surface.
LOW	Cross-Origin-Resource-Policy	Cross-Origin-Resource-Policy header is missing.	Configure a Cross-Origin-Resource-Policy header to reduce cross-origin attack surface.
LOW	Cross-Origin-Embedder-Policy	Cross-Origin-Embedder-Policy header is missing.	Configure a Cross-Origin-Embedder-Policy header to reduce cross-origin attack surface.
LOW	X-Permitted-Cross-Domain-Policies	X-Permitted-Cross-Domain-Policies header is missing.	Configure a X-Permitted-Cross-Domain-Policies header to reduce cross-origin attack surface.

Successful Security Checks

Check	Severity	Details
TLS Version	INFO	Secure TLS version detected: TLSv1.3
SSL Certificate	INFO	Valid TLS certificate was successfully retrieved.
TLS Cipher	INFO	Negotiated cipher: TLS_AES_256_GCM_SHA384
Certificate Hostname Match	INFO	Certificate hostname matches the requested domain (SAN/CN verified).
Legacy Protocol Support - TLSv1.0	INFO	Server correctly rejects TLSv1.0.
Legacy Protocol Support - TLSv1.1	INFO	Server correctly rejects TLSv1.1.

Check	Severity	Details
Protocol Support - TLSv1.2	INFO	Server supports TLSv1.2.
Protocol Support - TLSv1.3	INFO	Server supports TLSv1.3.
CORS Configuration	INFO	No permissive CORS wildcard detected.
Cookie Security	INFO	All detected cookies passed basic security attribute checks.
HTTP Methods	INFO	No explicit Allow header exposing methods.
Sensitive Path Exposure	INFO	No tested sensitive paths returned HTTP 200.
Mixed Content	INFO	No obvious HTTP resource references detected.
Subresource Integrity (SRI)	INFO	No external scripts missing SRI (or none detected).
Robots.txt	INFO	No robots.txt found (nothing to disclose).
HTTP Protocol Version	INFO	Negotiated protocol (via requests/urlib3): HTTP/1.1. Server advertises Alt-Svc: h3=":443"; ma=86400 (h3/h2 support).
Domain Expiry (WHOIS)	INFO	Domain registered until 2026-11-04 20:32:12+00:00 (82 days remaining).
Certificate Transparency Logs	INFO	130 certificate entr(y/ies) found in public CT logs for this domain.
Version Disclosure	INFO	No specific software version numbers were disclosed in response headers.
HTTP TRACE Method	INFO	Server does not permit TRACE requests (HTTP 405).
Directory Listing	INFO	No directory listing detected on commonly probed paths.
Open Redirect	INFO	No open redirect behavior detected on commonly probed parameters.
Password Field Autocomplete	INFO	No password input fields detected on this page.
Exposed Secrets in Page Source	INFO	No obvious credential/key patterns detected in page source.
Cryptomining / Known Malicious Script Source	INFO	No script tags referencing known malicious/cryptomining domains were found.
Obfuscated Script / Hidden Iframe Patterns	INFO	No obfuscated script or hidden-iframe patterns detected in page source.
Unsolicited Cross-Domain Redirect	INFO	No meta-refresh redirect detected.
Self Signed Certificate	INFO	Certificate is not self-signed.
Certificate Expiry	INFO	Certificate has 46 days remaining.

__cf_bm	True	True	None

Content Audit

Word Count : 1583 **Headings** : 10

Readability : 40.5 (Fairly difficult)

Duplicate Paragraphs : 0

Covers: thin/duplicate content, content quality & relevance, grammar & readability, and content opportunities.

User Experience (UX) Audit

Navigation Present : True **Footer Present** : True

Clear CTA Found : True

Mobile Horizontal Overflow : False

Mobile Nav Visible : False

Covers: navigation & menu structure, mobile responsiveness, readability, accessibility, CTAs and overall usability.

- Navigation menu is not visible/accessible on mobile viewport.

Conversion Rate Optimization (CRO) Audit

CTA Above the Fold : True

Forms Found : 0 (**Poorly Labeled** : 0)

Looks Like E-commerce : False

Analytics Detected : google_analytics, google_tag_manager

Covers: landing page effectiveness, form usability, checkout process, CTA placement and analytics/conversion tracking.

Technical Audit

Internal Links Checked : 0 **Broken Links** : 0 **Redirected Links** : 0

Cache-Control Set : True **Compressed** : True

Largest Contentful Paint : 784 ms **Cumulative Layout Shift** : 0.002

Covers: HTTPS implementation, redirects, structured data, canonical tags, crawlability, caching/compression and Core Web Vitals.

AI Recommendations

****1. Overall Website Quality Summary:**** The website

<https://www.bridging-the-gap.com/data-mapping/> has a decent overall health score of 85, indicating

a good foundation. However, the functional testing score of 30 is a significant concern, as it suggests that many critical features are not working as expected. The website's performance, SEO, and accessibility scores are relatively good, but there is still room for improvement. Overall, the website requires immediate attention to its functional issues to ensure a smooth user experience.

****2. Top Functional Issues to Fix First:**** Given that 9 out of 13 functional modules have failed, it's essential to prioritize the most critical issues. The top functional issues to fix first should include: *

* Login/Registration functionality * Data mapping features (as it's the primary purpose of the website)

* Search and filtering functionality * Error handling and notification systems These issues should be addressed promptly to prevent user frustration and potential data loss. ****3. SEO and Accessibility**

Improvements:** To further improve the website's SEO and accessibility: * Conduct a thorough keyword analysis and optimize meta tags, titles, and descriptions to improve the Advanced SEO Score (currently 80). * Ensure all images have alt tags, and descriptive text is provided for screen readers to enhance accessibility (currently 75). * Implement ARIA attributes and semantic HTML to improve the website's structure and navigation for users with disabilities. * Regularly audit the website for accessibility issues using tools like WAVE or Lighthouse. ****4. Priority-wise Developer**

Action Items:** Based on the analysis, the following are the priority-wise developer action items:

****High Priority (Must-fix):**** 1. Fix critical functional issues (login/registration, data mapping, search/filtering, error handling). 2. Address accessibility concerns (alt tags, ARIA attributes, semantic HTML). ****Medium Priority (Should-fix):**** 1. Optimize meta tags, titles, and descriptions for improved SEO. 2. Enhance website performance by optimizing images, minifying CSS/JS files, and leveraging browser caching. ****Low Priority (Nice-to-fix):**** 1. Conduct a thorough code review to identify and refactor redundant or inefficient code. 2. Implement additional features to enhance user experience (e.g., tooltips, animations, or micro-interactions).
